** The 144 MHz EME NewsLetter - Current Issue September 2011 **

Since 2003 DF2ZC publishes the 144 MHz EME NewsLetter. This is
a free service for the EME community. Bernd, DF2ZC, informed us
that the latest edition of the EME-Newsletter is now available
at: http://www.df2zc.de/newsletter - EMENL201109 [918 KB] 73

** 15th International EME Conference **

In less than one year from now the 15th International EME conference
will take place in Cambridge, England. The conference ï¿½ hosted by
the UK Microwave Group in conjunction with the RSGB - will be held
from 17th to 19th August 2012, starting on 16th with a tour through
the famous Bletchley Park with the WW2 code breaking establishment.
To provide best value the organising committee are arranging
inclusive packages to minimise those hidden extras. The details will
be published on the booking web site opened by January 2012. A
comprehensive partners program is currently being developed. Please
check the dedicated conference web site at http://www.eme2012.com
every now and then for updates. You can also register for a RSS
newsfeed on that site. Anyone with products of interest to the EME
community, who would like to promote them at the conference or by
taking advertising in the conference proceedings please contact
Brian G4NNS by direct email: brian-coleman"at"tiscali.co.uk

** DD0VF rcvd 2m DXCC certificate **

After some trouble (wrong callsign, wrong type of award) I received
my 2m DXCC (#73) today . My DXCC#100 was Bob, 3D2RS in october 2010
I usualy would not make so much noise about, but it might be the 1st
DXCC with a ERP called "QRP". The max antenna gain was 16.0dBd and
the max pwr was 550W in CW and 400W (350W in average) in digi modes
This shows the chances of the software by K1JT and I'm sure there
will be someone with even lower ERP than mine soon. About 3 years

I've been against digimodes, but I changed my minds in 2006. I never will forget my time on CW-eme with 109 inits. List of DXCCs on 2m: www.arrl.org/system/dxcc/view/DXCC-2M-20110911-A4.pdf

3D2C, CONWAY REEF ACTIVITY 2011 on HF and 6m & 2m (EME)
LATEST NEWS from Lance, W7GJ, via Magic Band EME, dated 2011-09-19:
I heard from the 3D2R team, and they agreed to try some limited
EME on 2m and 6m. I am not sure exactly what that means except
that I hope they will be QRV at least when the moon is below 20 deg.
on days when the Degradation is not too high. Their revised
frequencies are posted here: http://www.yt1ad.info/3d2r/frq.html
